

## INDEPENDENT PLAYER REGISTRATION PROCESS

Break Away believes strongly in providing a service to help individuals or small groups the opportunity to play and enjoy indoor soccer when they are interested.

**Break Away Sports will make every effort to place Independent players on a team. It is contingent on the following criteria;**

- Current Independent Players repeating into the next session have until the Early Bird Deadline to re-sign and be given priority placement on one of our teams.
- New players registered will be placed on our team should there be any space available. Break Away will often create additional teams based on the number of independent registrants.
- New player registration is on a 1<sup>st</sup> come 1<sup>st</sup> pay basis.
- Players wanting to be grouped together will be done whenever possible. The best chance to group players interested in playing together is to register them as soon as possible. The earlier and closer together the names are on the list, the better chance we have of placing them together on a team.
- If we are unable to place an independent player on any of our team(s) we will attempt to place them on an existing team.
- If we are unable to place the individual on a team, the money will be refunded in full.

Unfortunately independent players are NOT guaranteed a team to play on. But Please remember, **Our goal is to get all Independent Players on a team whenever possible!**
